SUMMARY

I design innovative, user-centered experiences by meeting user needs, advocating for customers, and driving success through strategic product design and team collaboration. With a proven track record across freelance, startup, agency, Fortune 3, and Fortune 5 projects, I enable teams and companies to bring impeccable experiences to their customers.

EXPERIENCE

Senior Product Designer | UnitedHealthcare – AI Platform, Dashboard, and Predictive Experiences

January 2026 - Present · Remote

- Led AI strategy, design, and integration for UnitedHealthcare's consumer dashboard, defining cross-platform AI patterns, shifting AI from standalone search to an integrated experience, driving 9.4M+ monthly active AI users and 51M+ AI-assisted journeys.
- Defined and implemented conversational AI entry points across UnitedHealthcare's consumer ecosystem, establishing cross-platform interaction patterns and placement, resulting in 1.8M+ monthly AI interactions within high-intent member journeys.
- Created personalized "What's Next for You" recommendations across Medicare, Medicaid, Commercial, and Employer-sponsored dashboards, enabling cross-line-of-business connectivity through embedded next best steps reaching 14.7M+ monthly members.

Senior Product Designer | CVS Health – Home Page, Retail and Pharmacy

January 2022 - October 2024 · Remote

- Designed and implemented a customizable vaccine scheduling feature on the CVS Pharmacy dashboard, resulting in over 250,000 additional vaccine appointments scheduled at CVS stores nationwide.
- Designed and implemented three types of modals in the CVS app, driving a 120,000+ monthly increase in push notification subscribers, 72,000+ users tying their Pharmacy and Retail accounts monthly, and a 239,000+ boost in monthly active users.
- Created targeted "Next Best Actions" through notifications, in-app messages, and built-in cards, resulting in a 76,000+ monthly increase in ExtraCare card links, 50,000+ monthly conversions, and a 200,000+ monthly increase in journey click-through rates.

Product Designer | Punchkick Interactive – B2B and B2C

July 2021 - December 2021 · Remote

- Redesigned features, created new screens, and designed micro-interactions of a national sports team's app, driving a noticeable increase in user engagement and feature understanding for 2,000,000+ users.
- Designed and developed a dashboard for a client's insurance app, allowing users to view alerts, contact their insurance adjuster, and access temporary housing, boosting app understanding by 60%.

EDUCATION

Bachelor of Science in Interaction Design | Santa Monica College

Santa Monica, CA

Associate of Science in Digital Media Design | Johnson County Community College

Overland Park, KS

LEADERSHIP

Leading Grad | SMC IxD Club

August 2020 – Present

Design Mentor | Feathrd

August 2019 – Present

PROJECTS

Foreign Ipsum

- Developed a Sketch plugin using Sketch, VS Code, JavaScript, and GitHub, enabling 500+ designers to generate multilingual text for mockups 18x faster, significantly reducing reliance on lorem ipsum.

Porter

- Developed a Messenger bot with a custom backend, providing WiFi information to 500+ travelers, streamlining their travel experience, and enhancing global travel preparedness.
